DECLARATION OF PRINCIPLES.

The People and the Liberals Compared-The Pledges Made-Promises That Will Be Fulfilled.

After long and careful discussion the People's municipal convention adopted

convention assembled, present the follow-

of the people to govern themselves. The object of the Federal constitution is to secure a free government to the people of the United States, wherein all persons hall be protected in life, liberty and proprty and in the enjoyment of every right ential to their happiness and not incon-

sistent with the rights of others. We regard the Constitution as a sacred charter of human liberty; we revere its principles and declare our unwavering aleginnee to the government and laws made

in pursuance of its provisions.

The People's party has always upheld these principles. It has maintained the right of local self government. It has contended for the freedom and purity of elections. It has opposed class legislation. It has promoted honesty in all branches of the public service. It has maintained equality before the law. It has been characterized by justice, prudence and fidelity. Taxation has been uniform and lower in Utah than in any other territory. There have than in any other territory. There have en no extravagant salaries, no jobbery Schemes for great bonded debts. Life property have been secure, morality has been fostered and vice repressed. It of a large flea. is the party of conservative progress, commensurate with public necessities and re-

As a rule lepers do not suffer severe while seeking to deprive a large class of American citizens of the substantial rights of freemen. Through its persistent misrepresentation the right of trial by jury has

bey would not support its men and measures. For this cause only, it has succeeded sary of the deaths of the two late emin robbing the women of Utah of the elective franchise after they had exercised it for fifteen years. It has endeavored to supplant a legislature elected by the people with a commission appointed by the Federal government. It has sought to erect an insuperable barrier of prejudice against the admission of Utah as a state. It seeks to extend to this territory the infamous enactments by which, in Idaho, 000 of an inch. thousands of law-abiding citizens are stripped of every political right, solely because of their membership in an unpopular lake in the world, is between 19,000 and religious organization. It avows, through its organs, its intention to procure such Congressional legislation as will debar all persons who belong to that religious body from acquiring title to any part of the public domain. It is therefore destructive of popular liberty and unworthy of the support of any just, liberal and patriotic

We believe that the supremacy of the "Liberal" party means class disfranchisement, excessive taxation, official extravagance, and laxity in public social regulations, and that the supremacy of the People's party means equality before the and reputation of the city for law and tity had risen to 4,619 tons.
